Giant Batsman Whacked Out Two Home Runs Against Chicago

SCHUPP PITCHED AIR-TIGHT GAME

New York's 5 to 0 Victory Evens Up the World Series

New York, Oct. 12.-Swinging their war clubs like the cave men of old, the New York Nationals battered their way to victory over the Chicago Americans here yesterday by a score of 5 to 0. As a result of the second defeat of the White Sox in two days, the Giants are on even terms with their rivals in the struggle for world series victory. The outcome of the battle for premier baseball honors is as much in doubt as before the series began in Chicago last Saturday. Each team now has won two contests and the indications point to a full seven game drive before either club will admit the supremacy of the other.

The victory of the Giants in the fourth game was the most impressive of the struggle to date, for the National league color bearers excelled both in pitchingand with the bat. While the Chicago combination threatened several times they never got a runner beyond third base ad the American league team left for shores of Lake Michigan without crossing the Polo ground's home plate in 18 in-

COL. HOUSE TO INCLUDE TRADE DATA IN HIS TASK

Object of President Wilson's Peace Data Collector Is to Prepare Nation for Post-Bellum Business.

Washington, Oct. 12.—America has an eye upon post-bellum business.

It will be a part of the task of Colonel House, President Wilson's peace data collector, to gather facts as to the economic situation both in belligerent and neutral countries, with the idea of knowing just where trade will run after the war. Thus far Colonel House's work has

been emphasized as bearing solely on the collection of facts for use at the peace table. In fact, Colonel House has long been engaged upon his task, but in its in ception the position was primarily eco-nomic. Now it has been extended and will cover a broader field.

Supreme Court Justice Brandeis, aid ing Colonel House, will collect near east-ern matters. Walter Lippman, until recently a confidential assistant to Secretary of War Baker, has been added to the staff and still others will assist the

President Wilson and the colonel were scheduled to discuss the situation at length yesterday.

Profit in Service

Everybody thinks of a store any kind of a store — as a place where the merchant is trying to make money; a clothing store is one to which men are urged to come and buy something so that the merchant can make a profit.

And yet there are such stores; where the merchant and the sales force want to serve, quite as much as sell: where the service begins long before you come for it, in buying the goods; where quality of merchandise is watched carefully, in your interests, that you shall get what is best for your purposes; where the discovery has been made that service is the most profitable way of doing business.

This store is that kind of a store —and we sell Hart Schaffner & Marx clothes because it is that kind of a store.
